# Messaging Architects™

Architected | Compliant | Secure

An eMazzanti Company

## Services Overview

Whether migrating Email or Electronic Documents to or from GroupWise, Office 365, Google or other email and email archive platforms, Messaging Architects has the tools, experience and professionalism to make that transition one of transparency and minimal impact to your organization.

The challenges of managing the troves of information sources can be daunting. Let Messaging Architects help you categorize, classify and identify your critical, outdated and sensitive information.

Security and Compliance is critical especially in Cloud systems where potentially everyone has access. Let Messaging Architects help define, implement and provide monitoring solutions for compliance.

Whether for internal information discovery, regulatory compliance or legal obligations, Messaging Architects experienced team of professional consultants can help define efficient and cost effect eDiscovery solutions and processes or assist to conduct them.
